

GREEKS KILL THREE AT FREDERICK, ILL.

FIANCE OF HANNA GIRL IS GRILLED

John Wyman, 36, Admits Intimacies but Denies Murder Guilt.

Hoopston, Ill., April 29.—(By The Associated Press.)—Information obtained through a night of grilling of John Wyman, 36, a well-to-do farmer, in connection with the mysterious death of Gertrude Hanna, 26, whose body was found Thursday in the basement of the untanned parsonage of the First United Presbyterian church here, will be placed before the Vermilion county grand jury, May 15, State's Attorney John H. Newman announced this morning.

During 36 hours of almost constant questioning, Wyman stubbornly insisted that he was innocent of murdering the young woman, but admitted that he was the father of her child which would have been born within a few weeks, the state's attorney said.

"Wyman has been trapped in a network of lies," the state's attorney continued, "and we have gained sufficient information to warrant a grand jury investigation of his knowledge in this baffling case."

Sheriff Charles Knox and C. J. Bogart, Hoopston police chief, who aided the state's attorney in the investigation, corroborated Mr. Newman's statement.

Agree on Murder Theory.

All authorities working on the case have virtually agreed upon the murder theory, although the exact cause of death had not been ascertained.

State's Attorney Newman and Sheriff Knox returned to Danville this morning.

Wyman was not held on any formal charge, but was to be kept under constant surveillance by a police officer, the state's attorney said.

Arriving at his office at Danville this morning, Mr. Newman conferred with Dr. J. G. Fisher, county physician, over the contemplated chemical analysis of the girl's viscera. The stomach was taken to Danville by Dr. Fisher yesterday and kept there, unexamined until today, under directions by the state's attorney.

William T. Hanna, the dead girl's father, and her sister Grace, were taken into the little inquisition room at the city hall last night, remaining until after 2 o'clock, while Wyman was questioned.

"I Didn't Kill Her."

Under the rapid fire of questions from State's Attorney Newman, Sheriff Knox and Chief Bogart, Wyman repeatedly resorted to the stock denial:

"I didn't kill the girl."

Once during the examination Wyman expressed the opinion that Miss Hanna had committed suicide.

"Why should she kill herself?" the state's attorney asked in his volley of questions.

"Because of the condition she was in," replied Wyman.

"Who caused that condition?" demanded Mr. Newman.

"I suppose I did," Wyman said.

Admission wrung from Wyman during the long, severe examination has established the following facts, according to the sheriff and state's attorney.

Had Promised Marriage.

That Wyman had intimate relations with Miss Hanna as late as last October or November, and that he agreed to marriage as the solution of their difficulties. The marriage was to have occurred Jan. 12, Wyman's birthday.

That Wyman was to abide by his agreement, offering as an excuse that the girl had confessed improper relations with other men.

That Wyman, when threatened by Miss Hanna with legal action against him, went to his brother-in-law, William Noebbt, to arrange for a bond in anticipation of arrest on the girl's charges.

Wyman left Hoopston, the investigators said, on March 19, and was not seen here again until the day Miss Hanna disappeared.

"Wyman gave very unsatisfactory explanations of his movements," State's Attorney Newman said. "We have confronted him with evidence to prove that he lied to us repeatedly," he added.

Sheriff Knox was even more positive in expressing a belief in Wyman's connection with the case beyond what the authorities say reached.

EMPLOYER SAYS BOYS WITH RED HAIR ARE BEST

Finds 'Bricktops' Are Full of Snap and Hustle.

BY A. H. LYON.

Consolidated Press Correspondent.

(Copyright, 1922, by The Argus.)

Bridgeport, Conn., April 29.—

"Give me a red-headed boy and I have got pep in my plant," James L. Lucas, head of the firm of Lucas & Son, machinery dealers, though not red-headed himself, is convinced that youngsters with brick tops and freckled faces are live wires.

"Wanted, another red-headed office boy," he recently advertised. The boy is at work today.

"Get a red-headed boy every time," Lucas says, "and you get snap and hustle, because, if you notice, these youngsters have more fire in them than their playmates. My experience convinces this is true. They usually are found in two bright and thrifty races; either they are Scots or Celtic in their ancestry."

Lucas used the word "another" in his advertisement because he had been successful before in similar ventures.

Can't Keep 'Em Down.

"We had a red-headed boy here for a number of years," he said, "but we couldn't keep him down to office boy duties. He's gone on to promotion and is holding a responsible position now with the firm in another plant."

It was the fourth applicant who won the last place. The employer has other ideas about boys.

"What brand of cigars do you consider best?" is one of his stock questions when boys ask for a job. The boy who answers quickly and from experience usually does not get the job. He also asks aspirants how long they think they should work without pay to convince him of their ability and bases his decision upon their reply. If a boy suggests a month he usually is not considered while the applicant who yells "not a minute" has a good chance of starting on the job.

KILLS SELF ON CEMETERY LOT

Ralph Farwell, Chicago, Puts Bullet Through Heart; Leaves Brief Note to Wife.

Chicago, April 29.—Ralph Farwell, 55, part owner of the Oakwoods cemetery and former secretary of the cemetery organization, yesterday went to his private lot in the cemetery and shot himself through the head. Poor health is ascribed as the cause.

The death was discovered by cemetery employees, whose attention was attracted by the sound of the shot. They found the body and summoned a physician, who pronounced death as having been instantaneous. Farwell was identified by papers in his pocket and a suicide note, addressed to his wife which merely said: "I have committed suicide."

PASSES BLUE SKY BILL.

Washington, April 29.—The house passed the Denison blue sky bill.

THE WEATHER

Fair and warmer tonight and Sunday.

Highest temperature yesterday, 56; lowest last night, 37.

Wind velocity at 7 a. m., 4 miles per hour.

Precipitation, none.

12 m. 7 p.m. 7 a.m. yesterday, yesterday, today.

Dry bulb temp., 51 54 40

Wet bulb temp., 41 42 35

Rel. humid., 39 36 58

River stage at 7 a. m., 14.8, a fall of 6.1 in 24 hours.

Sunset today 6:39 p. m.; sunrise tomorrow 5:00 a. m.

River Forecast.

The Mississippi river from below Dubuque to Muscatine will continue to fall at the present rate for the next three days.

ANDREW HAMRICK, Meteorologist.

Washington, April 29.—Weather outlook for the week beginning Monday includes:

Region of the Great Lakes: Generally fair and normal temperature but with a probability of unsettled weather and local rains later part.

Region of Mississippi and lower Missouri valleys: Considerable cloudiness, normal temperature and occasional showers.

HARDING IS OPPOSED TO SUN SAVING

Thinks Same Result Attainable by Use of Alarm Clock.

BY DAVID LAWRENCE.

(Copyright, 1922, by The Argus.)

Washington, D. C., April 29.—

Daylight saving will never be national during the administration of President Harding.

Although conceding the advantages of getting up early in the morning, Mr. Harding has taken the position that moving the hands of the clock forward is merely a deception during the summer season and that the same ends can be accomplished by the use of an alarm clock.

The chief executive has not been confronted with the necessity of signing or vetoing a bill on the subject for the good reason that congress has not been able to agree on the matter and the agricultural interests are strong enough to prevent the passage of any such proposal as was adopted under the Wilson administration as a war measure. But Mr. Harding has had the matter up before various local organizations have suggested that it would be a fine thing to have the government departments in the national capital put on a daylight saving basis.

This prompted the observation from Mr. Harding that he would not sign any executive order for the opening of the government departments on a daylight saving plan. If any of the department heads wanted to open his department an hour sooner, Mr. Harding sees no objection. That's entirely up to the cabinet officer. The president holds the view that if the people of a city want to save an hour they can get together and agree to get up an hour earlier and to have the banks open an hour earlier and to have their meals an hour ahead of time and have the theatres open at 7:30 in the evening instead of 8:30, and so on.

Change Habits, Not Clock.

Those who favor daylight saving and there's a considerable number for it in congress—answer the president by saying there is no chance of getting agreement on anything except by law and that all human conduct can only be regulated by law. It is admitted that there is conflict of interest especially as between rural and city communities, but the scheme of settling the thing by local option has failed. Not only have certain states failed to pass laws providing for statewide daylight saving because of the vigorous opposition of rural districts, but when the question has been left to local decision confusion has resulted. In President Harding's own state in fact in his own community, such disparity in time existed just before he came to Washington. The town of Marion retained its normal central time while Columbus, Ohio, 35 miles away, was an hour ahead. The president, however, does not dispute the advantages of an early start, but he insists that everybody ought to change his or her habits with the earlier sunrise instead of with the hands of the clock.

JUSSERAND TO QUIT U. S. POST

Count Peretti de la Rocca Is Slated to Succeed Present French Ambassador at Washington.

Paris, April 29.—(By The Associated Press.)—Count Peretti de la Rocca, political director of the foreign office, is likely to succeed Jean Jules Jusserand as ambassador to the United States as soon as the former can be spared by Premier Poincare. It was stated today. The retirement of M. Jusserand, according to present plans, will be arranged for his usual summer visit to Paris.

SUBMIT RUSS DOCUMENTS.

Genoa, April 29.—France and Great Britain submitted documents dealing with the reconstruction of Russia.

General Pershing, chief of the A. E. F. of which the girls were so proud of being a part, will greet them at a great mass meeting with the British and French ambassadors also in attendance. Mrs. Harding is planning a reception at the White house. The beautiful Arlington Park theatre will be thrown open to the girls and they will hold there a memorial for the women who died in the war. There were over 150 of them—a fact not generally known. Tasks seem humdrum in the government service on the eve of this reunion. Many girls who served abroad in the war now are tied down to prosaic jobs in the govern-

HARDING WON'T SEE 'CRUSADE'

Arrival in Washington today of the "children's crusade" composed of children and wives of men in federal prisons, for violation of war laws, was marked by announcement from the White house that the delegation would not be received by President Harding.

CAMP GRANT IS SCENE OF FIRE; LOSS IS \$50,000

Gas Tank Explodes; Garage and 20 Trucks Burned.

Rockford, Ill., April 29.—A garage and 20 light trucks used by the federal department of agriculture in experimental work at Camp Grant, were destroyed early today in a spectacular fire. Loss is estimated at \$50,000.

The fire was discovered by a sentry who discharged his rifle to give the alarm. The Camp Grant fire department responded immediately but because of the nature of the building it was consumed quickly.

A 100-gallon gasoline storage tank exploded and the fire quickly spread throughout the building. For 30 minutes there were minor explosions as the smaller tanks on the trucks exploded.

The fire was confined to the single building and no other damage was done.

Spontaneous combustion was given as the cause of the fire. It was the most spectacular since the hostess house at Camp Grant was burned.

LAWYERS STAGE FIGHT IN COURT

Roll on Floor After One Calls the Other a Liar; Jurors Stop Battle.

Tampa, Fla., April 29.—Jurors in a murder case broke up a fight between State's Attorney Charles B. Parkhill and Attorney Pat Whitaker, counsel for the defense. Parkhill, a former justice of the state supreme court, and a candidate for governor, was charged by Whitaker with interrupting the execution of a will for some purpose of his own.

"You're a liar," shouted Parkhill. The pair clinched and were on the floor when jurors intervened. Each was fined \$100 for contempt.

SENATE GIVEN OIL LEASE COPY

Document Shows Sinclair People Have 20 Year Lease on 9,221 Acres Naval Reserve.

Washington, April 29.—Investigation of the lease of naval oil reserves in California and Wyoming by the interior and navy departments was ordered today by the senate.

The photographic copy of the lease, signed April 7, by Secretary Fall of the interior department and Secretary Denby of the navy, on behalf of the government, and Harry L. Sinclair, for the Mammoth Oil company, lessee, was transmitted shortly before action was planned on a resolution for a congressional investigation.

Four state policemen and half a dozen strike sympathizers injured in clash.

Uniontown, Pa., April 29.—Four state policemen and half a dozen strike sympathizers were injured in a riot at Tower Hill No. 1 of the Hillman Coal company, 10 miles from Uniontown today.

Fifty or more arrests were made, the prisoners being brought to Uniontown.

Girls Who Served In France Will Hold First Reunion In National Capital Next Week

BY MARJORIE TAYLOR. Consolidated Press Correspondent.

(Copyright, 1922, by The Argus.)

Washington, April 29.—The girls who served chocolate and coffee in the war are going to meet in Washington next week and have a cup for Aud Lang Syne. This will be the first grand reunion of the Women's Overseas Service league since the war.

The Salvation Army lassie who waved a mean doughnut cutter in the war zone, the society girl who bathed dishes wholesale in the camps, the college girl who played checkers with homesick doughboys in the recreation huts, the telephone girl who kept a head on her shoulders in spite of the German artillery fire, nurses, clerks, ambulance drivers and others who did war work on the other side are going to have a grand time reminiscing.

Class distinctions will be obliterated and the social leader who personally relieved in devastated regions is as eager for this "chance to talk it over" as the humblest little hospital aide who was willing to—and did—scrub floors in the service of her country.

Pershing to Greet 'Em.

General Pershing, chief of the A. E. F. of which the girls were so proud of being a part, will greet them at a great mass meeting with the British and French ambassadors also in attendance. Mrs. Harding is planning a reception at the White house. The beautiful Arlington Park theatre will be thrown open to the girls and they will hold there a memorial for the women who died in the war. There were over 150 of them—a fact not generally known. Tasks seem humdrum in the government service on the eve of this reunion. RIVER GIVES UP BODY OF REV. LEACH

Missing Averyville Pastor Is Found on Shore By Fisherman.

Peoria, Ill., April 29.—The body of the Rev. W. J. Leach, missing pastor of the Averyville Presbyterian church and newspaperman, was found this morning by a fisherman on the Tazewell county shore of the Illinois river, wedged between the willows.

The body was found directly opposite Peoria, about two and a half miles south of the upper free bridge where the minister was last seen on the night of his disappearance. The body was badly decomposed, but identity was readily established by clothing worn, the identification being made by newspaper men who had worked with the minister and writer.

Notes on the flood found in Rev. Leach's pocket indicated he had gone to the river to get a feature article for the paper for which he worked. A heavy electrical storm was sweeping over the river the night he disappeared. The minister had in the spoken of the suffering caused by the flood during the services that night.

Disappeared April 2.

Rev. Leach disappeared about 9 o'clock on Wednesday night, April 2, after conducting Lenten services of the Averyville church, a suburb of Peoria.

When last seen he was standing on the church steps. He told members of the congregation he was going to ride home on a street car. He was seen walking away from the church a few moments later. Shortly afterward he was denied permission to cross the upper free bridge.

When Mr. Leach failed to return home large groups of citizens, Boy Scouts and national guardsmen searched for two weeks day and night in an effort to locate the missing pastor.

SEVERAL HURT IN MINE RIOT

Four State Policemen and Half a Dozen Strike Sympathizers Injured in Clash.

Uniontown, Pa., April 29.—Four state policemen and half a dozen strike sympathizers were injured in a riot at Tower Hill No. 1 of the Hillman Coal company, 10 miles from Uniontown today.

Fifty or more arrests were made, the prisoners being brought to Uniontown.

RECONSTRUCTS FACE ON SKULL OF SLAIN GIRL

New York Man Does Miracle to Identify Victim.

BY JANE COMPTON.

Consolidated Press Correspondent.

(Copyright, 1922, by The Argus.)

New York, April 29.—An investigator for the New York police department completed today the "reconstruction" of the skull of an unidentified murdered woman found a fortnight ago on a mountain near Haverstraw, 30 miles from New York City. This is the second occasion in the history of crime when an unrecognizable skull has been reconstructed into the semblance of what it was in life.

In each case the work has been done by Captain Grant Williams, now retired from the police department, who devised the method six years ago to effect the solution of a puzzling crime. Usually the task of an investigator is to reconstruct the circumstances and motive of a murder. Captain Williams has gone further back than this. He has reconstructed the murder victim, who devised the method six years ago to effect the solution of a puzzling crime.
